COVER LETTER

Dear Hiring Manager,

I am writing to express my interest in the Backend Software Engineering role at KPN. As a seasoned software engineer with experience in full lifecycle product development, I am confident that my technical understanding of cloud systems and project management skills make me a strong candidate for this position.

With more than 5 years of professional experience in programming languages such as Typescript/Javascript with Node.js , I have a strong foundation in back-end and frontend application development, makes me a valuable asset to your team.

I am particularly excited about the opportunity to work with a wide range of knowledge team at KPN, where I can bring my passion for technology and my positive and result-oriented attitude to support the growth of the company. I am confident in my ability to design, develop, and optimize customer-facing solutions while ensuring performance, scalability, and testability. I also believe in the importance of sharing knowledge and learning from my peers, and I am eager to foster a culture of transparency and communication in your engineering department.

Thank you for considering my application. I look forward to the opportunity to join your international team and contribute to KPN's continued success. I have attached my resume and look forward to discussing my qualifications further.

Sincerely,

Oscar Castillejo
