SUMMARY

Senior Software Developer(5+ years) with a strong background in Web development using technologies such as Typescript, React.js (Redux), and AWS. As a recent Technical Lead at Finastra, I successfully led a team of 10 developers in disrupting the Canadian mortgage industry, and was recognized 9 times for outstanding performance. Prior to that, I was a founding software engineer at Doorr, where I contributed to raising $1 million in Series A seed funding and promptly addressed client-facing issues. Holds a Computer Science degree. Seeking a challenging role as a Frontend developer.

EDUCATION

- **Universidad Católica Andrés Bello** — Guayana, VE
  Computer Science — *Aug 2015 - Dec 2020*
